DAILY STAFF MEETING

Tuesday, 16 October 1951

Mr. Reber reported on the special meeting of the IAC on 15 October 1951 and indicated that as a result of the attendance of Admiral Kirk and Messrs. Kennan and Bohlen he now believes he can approach the Service intelligence agencies with a request that returning high ranking military personnel also attend special meetings of the IAC. Mr. Reber also indicated that OCI was desirous of sending a representative to future IAC Meetings. This matter will involve some "soul-searching" on the part of OCI in their relations with their opposite numbers in the Service intelligence agencies.

Colonel Hansen raised the question of our Fiscal people actively participating in all budgetary matters, not only with the Bureau of the Budget but with the various congressional committees. He noted that CIA was the only governmental agency to his knowledge in which this was not SOP. He will approach Mr. Wolf on this matter.

At Mr. [ ] request, Mr. Reber will submit recommendations today on the advisability of furnishing one copy of the OCI "Daily Intelligence Digest" (TOP SECRET) to the National War College. Mr. [ ] suggested that if it was not the consensus to furnish this publication to the War College as a whole, it might be made available to the staff and faculty only.
